

## Letter of Recommendation for Kristin Peters

October 26, 2014

To whom it may concern:

It is with great pleasure that I write this letter of recommendation on behalf of Kristin Peters. My children, son age 14 and twin daughters aged 10, have taken piano lessons with Kristin since last September as part of their home school music curriculum. This is the first exposure they have had to piano lessons and the progress that my children have made during their thirteen months with Kristin as their teacher far exceed any expectations I had and demonstrate to me what a wonderful teacher she is. Not only have my children grown as piano players, they have gained more confidence in themselves.

Kristin has been able to impart her enthusiasm and love of playing the piano onto my children. Not only do they work from a piano lesson book, Kristin also allows them to choose pieces of music they want to learn as well as exposing them to a variety of musical genres. By allowing them to choose the piano pieces they want to learn, Kristin has given my children more incentive and motivation to practice and play. She customizes the music and lessons to their current skill level while at the same time providing challenges to keep the learning process going.

I respect Kristin for being a friendly, patient, positive, and encouraging teacher who has been able to make confident, self-motivated piano players out of my children. She sees each child as an individual and draws upon their strengths to teach them in ways that work best for them. I am very glad that my children have been able to experience her contagious passion and love of music first hand. I highly recommend Kristin as a piano teacher and am sure that her future students will also come to love music and playing the piano as much as my children have.

Sincerely,

Margaret Wood
