To Whom It May Concern:

My son Blaine Morgan has had the pleasure and privilege of taking piano lessons from Kristin Peters for a little over a year now. At a time when my son was becoming stagnant in his enthusiasm and had hit a plateau in his learning and progress, Ms. Kristin was an immediate boost to him and continues to encourage and challenge him. Family and friends who hear Blaine play are pleasantly surprised at the improvement Blaine has made since beginning lessons with Ms. Kristin.

Kristin exhibits a high level of professionalism in her studio and is very clear about her expectations with her students. Blaine truly looks forward to his weekly lessons and is always excited to share what he they worked on in the lesson and what he is working on long-term. Any time Blaine hears of someone that is interested in learning to play the piano, he is quick to recommend Ms. Kristin to them.

Our family feels blessed to have found Ms. Kristin and we enjoy seeing the progress in all of her students at her recitals.

Sincerely,

Treena Morgan
